Allowable Subject Matter

Claims 4,8-15, 17-20 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record does not teach a plasma torch having a dielectric standoff in the torch such that the torch is a dual mode torch and operates in both a high frequency mode and a contact start mode. .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

With reference to claim 4 the prior art of record does not teach outer and inner vent holes in a start cartridge in a plasma torch wherein the velocity of gas increases in the flow direction and acts to also cool the electrode. The prior art of record does not teach a method of operating a contact start plasma arc torch in a high frequency mode by providing sufficient dielectric standoff between torch head elements.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark H Paschall whose telephone number is 703 308-1642. The examiner can normally be reached on 7am - 3pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robin Evans can be reached on (703) 305-5766. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
